

Remarks/Arguments

The claims have been amended to more clearly define the invention. Even in light of these amendments, no new matter has been added. It would be appreciated if the Examiner would indicate the acceptance of this amendment in the next office communication.

Claim Objections

The Examiner has objected to claims 1-6 for a certain informality, namely a misspelling in claim 1. Accordingly, the misspelling "thep" has been replaced with "the," and withdrawal of the rejection of claim 1 and those claims depending therefrom is respectfully requested.

Claim Rejections - 35 USC § 112

The Examiner has rejected claims 7-10 and 12-16 under 35 U.S.C. § 112, ¶ 2, as being indefinite for failing to particularly point out and distinctly claim the subject matter which the Applicant regards as the invention. Namely, the claims are rejected because claim 7 recites a container having two necks. In response to this rejection, claim 7 has been amended to recite a container having only one neck, as described in the

Appl. No. 10/500,292

specification and shown in the drawings. Thus, withdrawal of the rejection of independent claim 7 and those claims depending therefrom is respectfully submitted.

In view of the foregoing, it is now believed that the claims are in condition for allowance. Thus, reconsideration of the rejections is respectfully requested and favorable consideration and allowance of the claims solicited. Should the Examiner have any questions regarding this response, the amendments submitted herewith, or the allowability of the claims, it would be appreciated if the Examiner would contact the undersigned attorney of record at the telephone number provided below for purposes of facilitating prosecution of this application.

Respectfully submitted,

DOWELL & DOWELL, P.C.
